

Fairfield's Surgical Instrument Marking solution has been certified by GS1 UK as capable of correctly and consistently implementing the listed GS1 standards and associated best practise. This certification is valid until 5 May 2018.

| | |
|---------------------------------|---|
| Company name: | Fairfield Labels Ltd |
| Solution name: | Single Instrument Marking |
| Version certified | V1.0 |
| Description: | Fairfield Labels', Single Instrument Marking solution enables the marking and identification of single surgical instruments for hospital trusts. Single Instrument Marking utilises the GS1 DataMatrix barcodes and GIAI identification key. The standards used all comply with the GS1 system. |
| Certified GS1 standards: | |
| GS1 Identification Keys: | Serialised GTIN, GIAI and GRAI |
| Bar code symbologies: | GS1 DataMatrix |

All GS1 bar codes were verified using the latest verification standards (based on ISO/IEC 15416 Bar Code Print Quality Test Specifications) as detailed in the GS1 General Specification.

GS1 UK has certified this solution following a defined and consistent process to ensure conformance to the latest relevant published GS1 standards. Fairfield Labels Ltd confirms that all the information presented here is true and correct as of the 4 May 2017.
