"A lot of my friends have businesses and they said that going live with a new system is going to take a year or two to get bedded in but I can honestly say within four months we were far, far ahead of where we ever were before with the previous system.""

DMS Flooring Supplies

Implementation & Training Included As Standard

Every OrderWise solution has, as standard, an implementation and training package with six months support and upgrades included. We also offer project specification, on-site training, on-site go live assistance, post go live reviews and can tailor your training to meet the exact needs of the business.

Easy System Change Over

When you purchase OrderWise, you don't just receive our OrderWise software. As part of our standard solution, we help migrate your current data from your existing system and import it into OrderWise. We understand that your requirements are unique and your assigned Project Manager will guide you through the whole process, ensuring a successful implementation is achieved.

Telephone & Remote Support

OrderWise has its own dedicated support team and a centralised support system to ensure your business receives first class telephone and on-line remote support 8am to 5pm Monday to Friday.

With the flexibility to choose a support package that suits the individual needs of your business, the OrderWise Support Team and their excellent system knowledge are only a call or a click within OrderWise away should you need them.

Standard Key Features Of OrderWise

Experience You Can Trust

We have been developing, implementing and supporting OrderWise, every day for over 24 years and install over 100 new OrderWise solutions every year. With that knowledge, you can be confident when dealing with OrderWise that our wealth of knowledge and experience can directly benefit your business.

Continuously Developed To Keep You Ahead Of Competitors

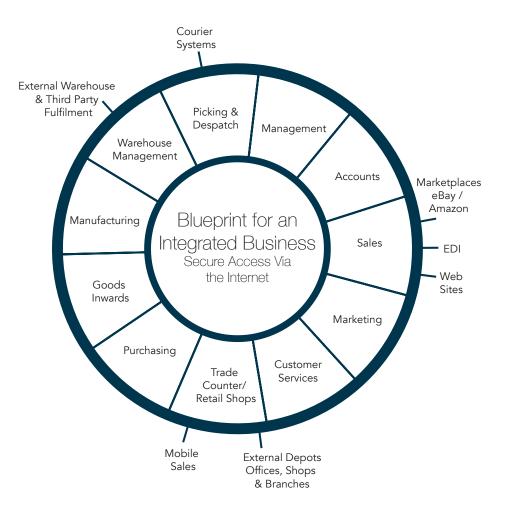

We are in complete control of our software because we manufacture it. Unlike dealers and bespoke system providers, we invest over £750,000 each year into the continuous development of our products and services to ensure your business always benefits from the very latest in business software.

A Financially Secure Vendor

Whenever you purchase new software for your business, you need to make sure the potential suppliers are financially secure. Your business does not want to invest in a system only to discover later that the supplier is unable to fulfil their obligations.

Key Features Include

- Powerful Core Software Including Stock Control, Sales, Allocation, Despatch, Invoicing, Purchasing, Goods In & Reporting
- Modular & Scalable Build A Solution To Fit Your Business
- ICAEW & HMRC Accredited OrderWise Accounts Module
- Link Sage & QuickBooks Accounts
- OrderWise eCommerce Website
 Design, Development &
 Integration
- Barcode Scanning Mobile
 Warehouse Management Devices
 With GS1 Barcode Capability
- Dedicated Project Manager
- Training At OrderWise Premises Or Your Premises
- Continually Developed
- Fully Supported By Trained Technicians At Our Lincoln Offices

Our Company is over 24 years old and we have over 8500 user businesses trusting OrderWise on a daily basis. Whilst this should provide peace of mind, you must always credit check all potential vendors. Please do not hesitate to credit check our company. Our company registration number is: 04633298.

You can also view the case studies section on our website which details the experiences and benefits provided by OrderWise to a variety of companies.

An Open Invitation -Come And See Our Premises

Your business should always visit any potential vendor as part of the selection process to see the resources available to you moving forward. We are immensely proud of our company and our staff and we would love for you to meet them. We extend an open invitation to visit our premises in Lincoln and see the company behind our business software.

A Software Solution Tailored To The Needs Of Your Business

OrderWise is a comprehensive all-in-one business management software suite that brings together your supply chain, order processing, stock management, distribution processes and accounts into a single application held on a single database. Specially designed to be used by a wide range of businesses of any size, our modular structure means the OrderWise solution can be customised and scaled to meet the specific requirements of your business, allowing you to buy only the features you need and grow into the rest later. This provides a stable infrastructure that drives better overall business performance and supports ongoing company expansion.

So whatever your business and processes, OrderWise can provide you with a suitable, reliable, end-to-end solution to manage your operations effectively, both now and in the future.
