6500 series linear barcode verifier

axicon
THE BARCODE EXPERTS
Results are immediately displayed on screen, and reports can be printed or e-mailed for remote diagnosis. Reports may be saved automatically to support ISO 9001 quality control procedures. Simple user-friendly calibration, and configuration of how results are displayed. This verifier is perfect for product manufacturers, label printers, printers and packagers, and pre-press studios. It is widely used by major retailers worldwide.

Features

- Verification for point of sale and outercase barcodes
- ISO/IEC (ANSI) compliant verification
- GS1 specifications
- USB powered
- Lightweight and portable
- Two year warranty
Axicon 6515
Mid range barcode verifier
The Axicon 6515 barcode verifier has been designed to read linear barcodes with a width of up to 125mm (4.9”) including quiet zones. This means only one verifier is needed to check all your GS1 barcodes – EAN/UPC, ITF-14 and GS1-128 – if the outer case and logistics label barcodes are not at their maximum size.

Axicon 6525-S
High speed mid range barcode verifier
The ‘S’ range of Axicon verifiers has a continuous scan feature, which means that obtaining at least ten different readings throughout the height of the barcode (as required by ISO/IEC) is much faster. Simply place the verifier slightly above or below the barcode, press the trigger and slide the verifier over the code – in less than a second you can have results of up to 100 scans of the code at different points in the bar height.
Symbologies verified

Aperture reference

The software automatically identifies the symbology and its bar width (x-dimension) and adjusts the aperture size to comply with the symbology specifications and relevant ISO/IEC standard.

Plus: Codabar, ITF, MSI Plessey and more...
Free licence software

The verifier will analyse according to ISO/IEC 15416.

In addition the software can also check applications, such as:

- GS1 General Specifications
- Data content checking
- Job Reference
- ISBN barcodes
- Product Lookup
- Coupon codes
- HIBC
- Instore

And more....
Reporting / Saving

Verification reports can be saved in various formats including:

- PDF
- HTML
- CSV
- TXT

Reports will include all ISO verification parameter grades in ISO/ANSI format.

**21 CFR part 11**

Auto saving of reports and user permission controls features enable 21 CFR part 11 compliance.

**IQ / OQ / PQ**

Installation, operational and performance qualification available. Comprises documentation, results forms and performance test cards.
