
Company name:	Securitas Healthcare
Product/service:	SpaceTRAX
Version:	2.7.3
Components:	N/A
Date of reapproval:	15 November 2023
Date of first approval:	12 April 2020
Valid until:	Valid for three years from the date of reapproval
Certificate reference:	5012345000107086

The product or service detailed above has been checked by GS1 UK and has met compliance with the following GS1 standards:

- **GS1 Identification Keys**
 - **Locations:** Global Location Number (GLN)
 - **Items:** Global Trade Item Number (GTIN)
- **GS1 data carriers**
 - **Barcodes:** EAN/UPC, GS1-128, ITF-14, GS1 DataBar, GS1 DataMatrix
 - **EPC/RFID**
- **Global Data Synchronisation**

GS1 UK has approved this product following a defined and consistent process to ensure conformance to the latest relevant published GS1 standards. Further details of the product's capabilities, as tested against each of the appropriate GS1 standards, are included in the appendix of this public report.

Please note: the approval process does not guarantee that every application or usage of the product/service detailed above will result in GS1-compliant outputs. Factors affecting this could include user-error, data used and any interfacing software and hardware.

Appendix

Supporting information:

Locations
Companies/locations can be identified using a Global Location Number (GLN)*
Items
Items can be identified using a Global Trade Item Number (GTIN)
Specific Items can be identified using a GTIN plus a serial number
Barcodes
The product can extract GS1-compliant data from EAN/UPC barcodes
The product can extract GS1-compliant data from ITF-14 barcodes
The product can extract GS1-compliant data from GS1-128 barcodes
The product can extract GS1-compliant data from GS1 DataMatrix barcodes
The product can extract GS1-compliant data from GS1 DataBar
Interfacing
The product can include GS1 Identifiers in data shared with 3rd party systems
Product data
The product can send or receive data via the Global Data Synchronisation Network (GDSN)

Notes: as part of this approval process, GS1 UK have made the following notes or recommendations regarding the product:

1. *SpaceTRAX can accommodate GLNs locations but is currently unable to cross reference GLNs decoded from barcodes to an associated location in the solution
2. Patients cannot currently be identified by GSRNs in the product – the partner is committed to incorporating GSRN functionality in an upcoming version
