

Professional desktop thermal printers

TD Series

www.brother.co.uk/TD

Versatile, high-resolution desktop printers

Brother's range of TD professional thermal printers allows you to print high quality labels on demand. Printing labels up to 4 inches in width, using direct thermal and thermal transfer print technology, They are an ideal solution for fast, cost-effective production of clear, compliant labels across a range of labelling applications.

TD professional
desktop label printers

Seamless integration

Brother's high specification desktop label printers bring you improved operational efficiency with easy to use, high speed and continuous label printing. Combined with seamless integration and modular design, you can print from virtually anywhere in the workplace. Supporting a variety of printer command languages, including ZPL II emulation, the TD printers allow you to easily integrate into existing legacy systems.

Professional label printing

The TD series offers a range of size and connectivity options to suit your business requirements, with premium printing across the series, ensuring consistent, high-quality results.

With options including a peeler, cutter and tablet holder to fit in any workflow, plus easy media loading and linerless label capability, these printers offer a flexible and smooth user experience. They feature common printer language emulation and compatibility with major label design software to ensure seamless integration. A 3-year warranty comes as standard, providing added peace of mind.

Printing technology

Direct thermal

Low-cost, high-volume labels can be created using a heat-sensitive coating and thermal print head, meaning traditional printing ribbons and inks are not required. Ideal for shorter term and less permanent labelling uses.

Thermal transfer

Crisp, durable printing is achieved through a process in which the ink is absorbed into the label, making it ideal for applications that require robust, harder-wearing and/or RFID labels.

Healthcare, medical and laboratory

With the strict regulations on the tracking of patient specimens and other items within the healthcare industry, clear, high quality labelling is essential to maintain safety and traceability.

A selection of the thermal transfer TD models offer RFID capability, allowing healthcare organisations to implement paper-free patient identification - improving efficiency and reducing human error.

Applications include:

- Appointment cards
- Admission labels
- Specimen, phlebotomy and pathology labels
- Blood bag labels
- Laboratory labels
- Microbiology labels
- Dosage/drug bag labels
- Wristbands.

Warehousing and logistics

Efficient warehousing operation and worker productivity are critical to the success of many companies. With the most common sizes of shipping labels available and the ability to create custom sized labels there are many uses for these models in the warehouse.

Applications include:

- Shipping labels
- Carton labels
- Location/racking labels
- Pallet identification labels
- Quality control labels
- Compliance labels.

Retail

Easy to read labels are essential for consumers to help make informed decisions prior to a potential purchase. The high print resolution and high quality labels used in this range ensure that every output printed looks professional; offering sharp text, logos and barcodes with a high contrast to ensure faultless scanning at the checkout.

Futhermore, printing labels with RFID tags enables retailers to streamline inventory management and asset tracking while improving security.

Applications include:

- Pricing labels
- Barcode labels
- Pre-packaged food ingredient and allergen labels
- Nutrition information labels
- Shelf-edge labels
- Price markdown labels
- Gift aid labelling
- Jewellery/glasses price tags.

Brother supplies

Our range of paper, ribbons and labels offer technology that protects the printhead, reduces wear and tear and provides a greater performance.

Suitable for a range of Brother thermal printers and for use across various industries to meet your printing needs.

Why choose Brother supplies?

- ✓ Brother has decades of manufacturing experience and expertise.
- ✓ Brother products are evaluated and tested under a variety of conditions.
- ✓ At Brother, we constantly refine and improve our printers and supplies, guided by customer insights and changing industry demands.
- ✓ We'll work with you to recreate any printing issues you've encountered and recommend the most suitable supplies for your needs.

TD-4D Desktop printing supplies

Supply type	Part code	Description	Size	Quantity	Rolls/box
Receipt Not compatible with TD-4420DNFC and TD-4555DNWBFC (linerless models)	BDL-7J000102-058	Continuous receipt roll	101.6mm x 32.2m	n/a	20
	BDL-7J000076-066	Continuous receipt roll	76mm x 42m	n/a	8
	BDL-7J000058-102	Continuous receipt roll	58mm x 101.6m	n/a	8
	BDL-7J000058-040	Continuous receipt roll	58mm x 13.8m	n/a	24
Labels Not compatible with TD-4420DNFC and TD-4555DNWBFC (linerless models)	BDE-1J000102-102	Continuous label roll	102mm x 58m	n/a	8
	BDE-1J050102-102	Die-cut label roll	102mm x 50mm	1,050 labels	8
	BDE-1J152102-058	Die-cut label roll	102mm x 152mm	85 labels	20
	BDE-1J152102-102	Die-cut label roll	102mm x 152mm	350 labels	8
	BDE-1J026076-102	Die-cut label roll	76mm x 44mm	1,900 labels	8
	BDE-1J044076-066	Die-cut label roll	76mm x 44mm	400 labels	8
	BDE-1J026051-102	Die-cut label roll	51mm x 26mm	1,900 labels	16
	BDE-1J026051-060	Die-cut label roll	51mm x 26mm	500 labels	12
	BDH1J050055127	Top coated and removable	55mm x 50mm	1000 labels	8
	BDH1J030035120	Top coated and removable	35mm x 30mm	2500 labels	12
	BDE1J090029102	Standard address labels	29mm x 90mm	600 labels	6

Supply type	Part code	Adhesive strength	Size	Rolls/box
Continuous linerless roll (Linerless models only: TD-4420DNFC and TD-4555DNWBFC)	BFA-274039-102	Removable (full)	39mm x 82.3m	12
	BFA-274058-080	Removable (full)	58mm x 51.8m	32
	BFA-274080-080	Removable (full)	80mm x 51.8m	32
	BFA-274106-080	Removable (full)	106mm x 51.8m	9

TD-4T Range

4 inch					

Printing

Print technology	Thermal transfer/direct thermal					
Print speed	152mm/sec	127mm/sec	203.2mm/sec	152.4mm/sec	203.2mm/sec	152.4mm/sec
Resolution	203dpi	300dpi	203dpi	300dpi	203dpi	300dpi
Max. print width	108mm	105.7mm	108mm	105.7mm	108mm	105.7mm
Min. print length	Peeler: 25.4mm, Cutter: 25.4mm Tear: 50mm		Continuous: 5mm tear mode, media width less than 2 inch: 25.4 mm, media width greater than 2 inch: 50 mm, peeler mode: 25.4mm cutter mode: 25.4mm			
Max. print length	25,400mm	11,430mm	25,400mm	11,430mm	25,400mm	11,430mm
Media sensor type	Gap (transmissive), bar (reflective)					
Media sensor location	Gap (fixed), reflective (adjustable)					
Tear off release mode	Standard: Continuous, tear off Optional: Peeler, cutter		Standard: continuous, tear off Optional: peeler, cutter		Standard: continuous, tear off Optional: peeler, cutter*	

Media

Media types	Wristbands, continuous, die-cut, fan fold, perforated, tag	Media type continuous, black mark, label with gap, notch media, punched hole media	Media type continuous, black mark, label with gap, notch media, punched hole media, Gen2 RFID tag
Media thickness	0.06 - 0.19mm		
Media width	20 - 112mm		
Media length	5mm - Max. print length		
Diameter (max)	127mm		
Core diameter (min)	25.4mm and 38.1mm		

Ribbon

Types	Wax, wax/resin, resin
Wound type	Outside wound
Ribbon width	40 - 110mm
Suggested paper core width	0.5 inch paper core: fixed width 110mm, width 2 notches in each side 1inch paper core: fixed width 110mm with 2 notches in each side 1inch paper core: paper core width is the same as ribbon width and use with ribbon spindles
Inner paper core and ribbon length	0.5 inch paper core: Max. OD 40mm, 110m length 1inch paper core: Max. OD 67mm, 300m length

Connectivity

Power

Adaptor	AC adaptor Input: AC 100-240V, 2.0A, 50-60Hz Output: DC24V, 2.5A, 60W, LPS	AC adaptor Input: AC 100-240V, 2.0A, 50-60Hz Output: DC 24V, 3.75A, 90W CEC6 compliance
---------	---	--

Software

Operating system support	Windows 7/8/8.1/10/11, Windows Server 2008/2008R2/2012/2012R2/2016/2019, Linux, Mac OS v10.6-11
Supported printer commands	FBPL-EZD (EPL2, ZPL2, DPL) emulation
Barcode symbologies	Linear: Code128UCC, Code128 subsets A, B, C, EAN128, Interleaved 2 of 5, Interleaved 2 of 5 with check digit, Code39, Code39 with check digit, Code93, EAN13, EAN8, UPCA, UPCE, EAN and UPC 2 (5) digits add-on, Codabar, Postnet, MSI, MSI with check digit, PLESSEY, China post, ITF14, Code11, TELEPEN, TELEPENN, PLANET, Code49, Deutsche Post Identcode, Deutsche Post Leitcode, LOGMARS 2-dimensional: GS1 DataBar, GS1 DataMatrix, Maxicode, AZTEC, PDF417, QR Code, Micro PDF 417
Internal fonts	8 alpha-numeric bitmap fonts for FBPL Monotype Image® true type font engine with one CG Triumvirate Bold Condensed scalable font

Memory

RAM	64MB	128MB
Flash	128MB	

Environmental

Operating temperature	Operate: 5°C to 40°C
Operating humidity	25 - 85% non-condensing
Storage temperature	-40°C to 60°C
Storage humidity	10 - 90% (No condensation)

Weights and dimensions

Dimensions (mm)	204(w) x 178(d) x 280(h)	219(w) x 284(d) x 191(h)
Weights	2.5kg	3.0kg

Included items

Supplied in box	AC adaptor and cord, USB cable, Documentation, Pair of 1" Ribbon spindles for 300M ribbon, 1" Ribbon paper core	AC adaptor and cord, Pair of 1" ribbon spindles for 300m ribbon, 1" Ribbon paper core, USB Cable (1.5m), Quick start guide, Product safety guide (including warranty card)

	BRP-1D300-110	Premium resin ribbon	110mm x 300m	n/a	12

For additional consumable options please contact your local Brother office.

With label design apps for desktop PCs and mobile devices, and Software Development Kits (SDKs) to integrate the TD range into your own applications, you can choose the best option for your label printing needs. Brother provides all the necessary tools required for software developers to integrate printing into their applications. Printer drivers are available for Windows OS, and SDKs can be provided to support Windows Mobile,* Android and iOS operating systems.

Software, support and features

P-touch editor

Supplied as standard, you can create your own custom labels with pixel precision by using this powerful software solution. With features such as support for over 15 barcode protocols, advanced image dithering to print high quality grayscale images, and the ability to link to data contained in Excel spreadsheets for batch printing of labels, any label design is possible.

Crop function

Built into the Windows driver, this function helps take away the inconvenience of using A4 sheets of labels in your standard printer. This clever feature automatically scans through the document and where a barcode is present it extracts shipping or product labels one at a time then prints as individual labels on the Brother label printer.

Template mode

Design the required document on your Windows PC, including logos and barcodes. Once transferred and stored in the printer's memory, the template can be recalled and any data replaced, before printing with just a few short commands.

Printer commands

With support for ZPL II emulation and a variety of additional printer command languages, developers can easily integrate printing into existing legacy systems (see specification tables for further details).

Mobile deploy

Cloud-based app for mobile devices (iOS and Android™), which allows IT administrators to remotely update and configure multiple Brother mobile printers. Using Mobile Deploy, the administrator can easily upload new update packages to an online location, and then share the URLs with the users.

Software development kits (SDKs)

Brother can also supply a selection of free of charge Software Development Kits to give you an easy method of incorporating label printing directly from within your own software programs. Available from: **www.brother.eu/developer**

Legacy print data conversion

This feature simplifies integration with legacy systems by converting print commands into P-touch templates. These templates can be updated externally to the legacy system without the need of specialist knowledge of print languages such as EPL, ESC/POS and others.

* Compatibility may vary dependent on model - check table on following page
