Global Location Numbers in Ordering

- Trust Identification: Organisational GLN
- Ship to: Physical GLN of the goods bay
- Deliver to: Function GLN of the service provided
- Bill to: Digital or Function GLN for Accounts payable

Why use Function GLNs

Healthcare settings are never set in stone they respond to the needs of a community and an organisation. A ward or department in a hospital is more than a physical place, it is the interaction of staff and patients. The stock is unique to the circumstance. Registering stock by physical location will show an audit history in retrospect that would identify inappropriate stock holdings when compared to the current usage. Therefore we need to be able to maintain the history of the stock wherever the group of specialised staff interact with that specific genre of patients.
