# hello my name is...

Jackie Whittle

Head of Nursing Informatics and Chief Clinical Information Officer
Leeds Teaching Hospital Trust
As people live longer, but also with more long-term conditions, there is an inexorable increase in the demand for healthcare.

Topol Review HEE Review 2019
Technological innovation will increasingly shift the balance of care in the NHS towards more centralised highly specialised care and decentralised less specialist care.

Topol Review HEE Review 2019
#DATA SAVES LIVES

Connected Health Cities and The Farr Institute
The Chief Clinical Information Officer for Health and Care in England has outlined seven priority areas:

- NHS Number/Citizen ID
- Staff ID
- Dates and Scheduling
- Medications
- Basic Observations
- Digital Pathology
- Diagnostic Coding

Dr Simon Eccles CCIO
Health and Care England
Our technology landscape is varied and diverse, and interoperability is poor.

This:

- increases costs because we are not taking advantage of economies of scale
- has patient safety implications and increases errors
- introduces delays in the transmission of data from one system to another.
- slows the digitisation of those parts of the system still very poorly served by technology
Clinical Role:

What?

How?

Why?
... the new oil  “Data is the new gold, Data is the new oil, unrefined it cant really be used.”
