

Company name: Idox Health

Product/service: iFIT $^{\text{TM}}$ Version: 2.19
Components: N/A

Date of approval: 20 August 2020

Valid until: Valid for three years from the date of approval

Certificate reference: 5012345000107020

The product or service detailed above has been checked by GS1 UK and has met compliance with the following GS1 standards:

• GS1 identification keys

- o Locations: Global Location Number (GLN), GLN Extension Component
- People: Global Service Relation Number (GSRN), Service Relation Instance Number (SRIN)
- o **Assets**: Global Returnable Asset Identifier (GIAI)
- o **Returnable assets:** Global Returnable Asset Identifier (GIAI)
- o **Documents**: Global Document Type Identifier (GDTI), GDTI serial component

GS1 data carriers

- Barcodes: EAN/UPC, GS1-128, ITF-14, GS1 DataBar, GS1 DataMatrix, GS1 QR code
- o EPC/RFID

GS1 UK has approved this product following a defined and consistent process to ensure conformance to the latest relevant published GS1 standards.

Further details of the product's capabilities, as tested against each of the appropriate GS1 standards, are included in the appendix of this public report.

Please note: the approval process does not guarantee that every application or usage of the product/service detailed above will result in GS1-compliant outputs. Factors affecting this could include user-error, data used and any interfacing software and hardware.

Paul Reid

Head of standards and consulting GS1 UK

Appendix

Supporting information:

Locations

Companies/locations can be identified using a Global Location Number (GLN)

Physical sub-locations can be identified using Global Location Number Extension Component

People

People/patients or care givers can be identified using a Global Service Relation Number (GSRN)

Different encounters during a service relationship can be identified using a Service Relation Instance Number (SRIN)

Assets

Assets can be identified using a Global Individual Asset Identifier (GIAI), Global Returnable Asset Identifier (GRAI) and/or GRAI plus serial component

Documents

Documents can be identified using a Global Document Type Identifier (GDTI)

Specific documents can be identified using a GDTI and serial component

Barcodes

The product can extract GS1-compliant data from GS1-128 barcodes

The product can extract GS1-compliant data from GS1 DataMatrix barcodes

The product can encode GS1-compliant data into GS1-128 barcodes

The product can encode GS1-compliant data into GS1 DataMatrix

EPC/RFID

The product can extract data from GS1 EPC tags

The product can encode data into GS1-compliant tags

Interfacing

The product can include GS1 Identifiers in data shared with 3rd party systems

Notes: as part of this approval process, GS1 UK have made the following notes or recommendations regarding the product:

- 1. At the time of review, no further recommendations had been made
- 2.
- 3.
- 4.
